M-SERIES HYDRAULIC AUGER DRIVES

M-Series Hydraulic Auger Drives are engineered to deliver the same unrelenting power and performance as our flagship H-Series Hydraulic Auger Drives but in a condensed form. With that kind of power, you'll make short work of drilling under the harshest conditions.

CUTTING EDGE COMPONENTS

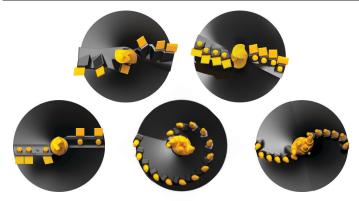

Parker hydraulic motors, Auburn Gear planetary drives, Mobilube HD Plus gear oil—when it comes to assembling the M-Series powertrain, we only use the best products from the leading names in America.

HEAVY-HITTING PLANETARY DRIVE

The core of an M-Series auger drive is its unrivaled, heavy-hitting planetary drive built with ultra-precise, robust, and fully sealed gearing. Expect plenty of torque to finish jobs fast.
